

## Short Term Pain for Long Term Gain: How UHY Consultancy can Support with Efficiencies

UHY Consultancy UK boasts extensive experience in delivering cost improvement programmes using advanced PMO techniques. Our proven track record of success is rooted in our collaborative approach, working closely with clinical, particularly medical, and operational staff to ensure full engagement and support.

At UHY Consultancy, we have significant experience in transformation and cost improvement programmes, and our team has successfully worked across all commissioner and provider sectors with a focus on "cost out" rather than "cost shift."

### Our Comprehensive Services

We offer a wide range of services to help you achieve financial efficiencies without compromising on quality. Our approach includes:

- Collaborative engagement: We work hand-in-hand with clinical, operational, and management staff to identify and target appropriate areas for operational efficiencies and financial savings.
- User-friendly reporting: We establish monitoring and reporting controls that present information in an easy-to-understand format, ensuring non-finance staff can easily grasp the achievement of efficiencies.

- Thorough documentation: Our detailed Project Initiation Documents are fully signed off by Operational and Clinical Directors, as well as finance staff, ensuring all plans are well-supported and approved.

### Our Proven Approach

Our approach ensures ongoing success through meticulous planning and continuous oversight:

- Targeted efficiency plans: We identify potential areas for operational efficiencies and financial savings, tailoring our approach to your organisation's specific needs.
- Continuous monitoring: We conduct regular assessments to ensure the ongoing monitoring of efficiency plans, with clear reporting to the Finance Committee and Board.
- Quality Impact Assessments (QIA): We ensure QIAs have been undertaken and monitored, ensuring the integrity and quality of services are maintained.

At UHY Consultancy, we are committed to helping you navigate financial pressures and achieve lasting efficiencies. Our comprehensive, collaborative approach ensures that all plans are well-supported, meticulously monitored, and effectively executed.
